

Add a Peer Reviewed Label

To mark a journal article as peer reviewed, you will need to add the *Peer Reviewed Label*.

From the Home page, go to the **Scholarly & Creative Works** section, and click on *Journal Articles* to pull up a list of your articles.

You can use the filters on the right of the screen to help find the article you are looking for.

Label

Add a Peer Reviewed Label

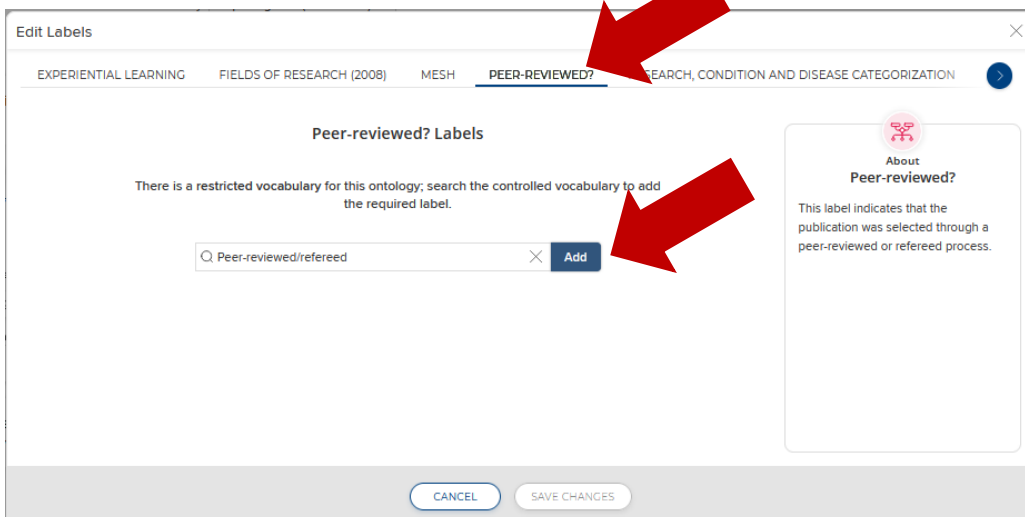

Once you see the article entry, click on the **Labels** tab.

Next click on the pencil icon

Then navigate to the **Peer-Reviewed** tab and click in the search box. The only label available will be *Peer-reviewed/refereed*. Click on it to add it display it in the box. Then click the **Add** button.

Add a Peer Reviewed Label

The label will be displayed with a red border. Click the **Save Changes** button to save it.

The screenshot shows a web interface titled "Edit Labels" with a navigation bar containing "EXPERIENTIAL LEARNING", "FIELDS OF RESEARCH (2008)", "MESH", "PEER-REVIEWED?", and "RESEARCH, CONDITION A". The main heading is "Peer-reviewed? Labels". Below this, a message states: "There is a restricted vocabulary for this ontology; search the controlled vocabulary to add the required label." A search bar with the placeholder "Q Search for a label name" and an "Add" button is present. Below the search bar, a note says "There should be at most one label from this ontology applied at a time." A label "Peer-reviewed/refereed" with a red border and a close icon is shown. At the bottom, there are "CANCEL" and "SAVE CHANGES" buttons, with a red arrow pointing to the "SAVE CHANGES" button.
